Kasenna wins Russian order

Video-on-demand specialist Kasenna has announced that it is supplying its PortalTV suite of products to Russia's Southern Telecom Company (UTK) via St Petersburg-based system integrator Business Computer Centre. UTK's DiSel TV IPTV platform has been launched in two cities in the Krasnodar region in southern Russia, offering 33 TV channels. The service is being extended to Rostov, Stavropol and Kabardino-Balkaria. The PortalTV suite comprises Kasenna's Mediabase VOD server platform, 40 network PVR channels with pause live TV and content management platform vFusion.
